

2nd Call for papers

The *Gruppo del Colore – Associazione Italiana del Colore* (Color Group – Italian Color Association, <https://gruppodelcolore.org/?lang=en>), in collaboration with the *Istituto di Fisica Applicata “Nello Carrara”* of the *Consiglio Nazionale delle Ricerche* (IFAC-CNR) and the *Opificio delle Pietre Dure* (OPD), organizes an international conference on

“Colour Photography and Film: sharing knowledge of analysis, preservation, conservation, migration of analogue and digital materials”
Florence (Italy), March 29-30, 2021.

We have been experienced the lockdown because of Covid-19. As it stands, this could prove to be the very first digital memory of a major, global event. As a matter of fact, the transition from analogue to digital began in the 1990s, but so far, analogue and digital technologies have been united to ensure a qualitative compromise.

Although the idea of the organizers to launch a conference on the state of the art of contemporary photography was born with the Italian research project called *Memoria Fotografica* (<https://www.ifac.cnr.it/images/stories/libri/archivio/BOOK/Memoria-fotografica.pdf>), which started in 2019, we are currently facing a new situation, therefore a new involvement. A growing international interest in visual memory, its results and issues related to preservation, conservation, investigation, transmission and use are going to be fundamental topics, as we emerge from the current crisis

Therefore, a look at the history, practices, archiving and use of analogue and digital photography can help us define new strategies for the conservation and restoration of photographic and film materials.

Contributors are welcome to outline and share their recent research and experiences on analogue and digital materials. Highlights on preservation, conservation, restoration, digital migration of colour photographs and film are particularly welcomed.

Authors are invited to submit their papers in one of the following sessions. The submission is considered as a commitment to participate in the conference. To submit your paper, use the online EasyChair system available from June 1, 2020 at:

<https://easychair.org/conferences/?conf=photofilm2021>

Papers sent by e-mail will not be accepted.
